

LEARNING STYLE

- Auditory: 25%
- Visual: 40%
- Tactile: 35%

Was it what you expected?

Yea I feel like when I was answering through the questions I already had an idea of how I learn the best. So taking this quiz kind of just seemed to prove my point.

What do you think you will do in this class to optimize your learning?

I think I would just try to watch more tutorials or ask help for the instructor so he can tell me what I'm doing wrong

What can I do to help you?

I feel like I am personally going to have to reach out and schedule more appointments and email you more when I problem occurs.
